Baghdad Provisionals Revisited

Over the years various articles have been written about the 1 Piastre on 2 Piastres hand-surcharged bisected stamps of the *UPU Empire* issue.¹ General consensus is that these stamps were hand-surcharged and exclusively used from Baghdad to the vilayets of Iraq (Baghdad, Basra, Mosul).

Fig. 1: Type I
(Paiste/Pearson Type II)²

Fig. 2: Type II
(Paiste Type I, Pearson Type 1b)

Fig. 3: Type III
(Paiste/Pearson Type III)

Pearson concluded in 1991:³

The fact that these bisects are, [...], all used and generally addressed to native correspondents in adjoining towns, would seem to support Higlett's conclusion rather than Passer. They certainly seem to have passed through the post without surcharge. Without evidence of local postal documents or contemporary newspaper reports it is impossible to be confident. The fact that they were not supplied in quantity in unused condition to European residents, as happened with the 1887 'bisects' of Constantinople, would seem to be in their favour. To have been worth producing as a bogus issue would have needed a ready collector's market, which was perhaps unlikely in Bagdad in 1890, and they were not on sale long enough for the European philatelic press to report on them before their use was discontinued.

In his 2001 article, Pearson details all the forgeries he detected. He came to this conclusion regarding Type III:

I am of the opinion that all with the 11 Fevrier obliteration were made either in Constantinople or Vienna, probably within a few months of the issue in 1892 and using as models the illustrations in Illustriertes Briefmarken-Journal or Le Timbres-Poste.⁴

So far no official documents have surfaced to explain why these so called "Baghdad Provisionals" had been prepared and whether they were officially approved, and no usage of types II and III outside of the vilayets Baghdad, Basra, and Mosul have been recorded, until now.

The following examples are the only recorded documents showing the usage of surcharged bisect stamps of types II and III for destinations outside the vilayets of Iraq.

Overland Mail Baghdad–Haifa: A Very Special Iranian Overland Mail Cover

by Rainer Fuchs (FRPSL, AIJP)

Copyright © 2016

I present here a cover with an *Overland Mail* route instruction label from Iran. This is the only known Advice of Receipt (Avis de Réception, A.R.) cover sent from Iran via *Overland Mail Baghdad–Haifa*, and the only known cover with route instruction label Collins L-15.

This registered cover, using official stationery, was sent “A.R.” in the second weight class from Teheran (2.05.1932) to the Persian Embassy in Paris. On the reverse there’s the wax seal of the *Persian Ministry of Foreign Affairs*, a transit postmark “Damas” (10.05.1932) as well as an arrival postmark of Paris (17.05.1932).

The total postage rate of 105 Chahis consists of:

Postage for letter up to 20 g	30 Chahis
Additional postage for 21–40 g	20 Chahis
Registration fee	30 Chahis
Advice of Receipt fee	20 Chahis
Overland Mail surcharge: up to 20 g	3 Chahis
Overland Mail surcharge: 21–40 g	2 Chahis

The cover bears two strikes of the two-line boxed route instruction hand-stamp “SERVICE TRANSDÉSERTIQUE / SYRA IRAQUIEN” (Collins type HS-88) applied at the Teheran Post Office, and in addition the route instruction label “OVERLAND MAIL BAGDAD-HAIFA” (Collins type L-15).

Syrian Hejaz Railway Postmarks: Request for Information

by Folkert Bruining

Copyright © 2017

During my research for the special issue of *Al-Barīd* on the Hejaz Railway,¹ I noted the lack of information on Syrian travelling post offices. After World War I, the Hejaz Railway was divided between British-ruled Palestine and Transjordan and French-ruled Syria.

I have three areas of specific interest:

- In the ground-breaking book by Jakob von Uexküll about the early postal history of Saudi-Arabia, a postmark is shown on page 80 of the Ottoman travelling post office between Damascus and Maʿān: DAMAS–MOUAN. I was not able to find any further information about this T.P.O.
- In the Zvi Alexander collection² there's a postcard with a Syrian T.P.O. cancel for the Palestine branch line dated 29th December 1926: CAIFFA–DAMAS. Are there others?
- I could not find any information about travelling post offices on the Syrian main line. Are there any Syrian T.P.O. postmarks known from this era, e.g. for Damas–Derʿa (Darʿā)?

Syrian Hejaz Railway Postmarks: Alep–Damas and the Postmarks of the Palestine Branch Line after WWI

by Tobias Zywietz

Copyright © 2017

Following the request of information by Folkert Bruining,¹ I went through my library, but being a Palestine specialist, found little on the Syrian main line travelling post offices. I found a cancel “DERAA STATION / درعا-المحطة”² – but that’s not a T.P.O., of course.

The only two Syrian T.P.O. cancels of the post-WWI era I’ve seen in literature, apart from the cancels on the Palestine branch line detailed below, are from the ALEP–DAMAS tranche. Areksoussi³ shows two covers, one from 1926, the other from 1934:

Fig. 1: ALEP–DAMAS, 15.02.1926, with 9 (?) bars in the upper segment.

Fig. 2: ALEP–DAMAS, 19.10.1934, with 16 (?) bars in the upper segment.

The Palestine Branch Line Haifa–Dar‘ā after WWI

There are several articles dealing with the Palestine branch line, i.e. Dar‘ā to Haifa. In 1956, Cyril Kidd gives a brief overview of T.P.O.s in Palestine,⁴ focussing much on the main line to Egypt, i.e. Kantara–Haifa, but also the internal lines Jerusalem–Jaffa and Jerusalem–Lydda. He suggests that the “R.M.S / I.E.F.”⁵ cancel “was used by the clerks in the Jerusalem–Jaffa T.P.O. pending the allocation of a date-stamp with that name” (speaking of the period 1919–1921).

1 Bruining, Folkert: *Syrian Hejaz Railway Postmarks: a Request for Information*. In: The Middle East Philatelic Bulletin, no. 5, 217, p. 11.

2 Areksoussi, 2016, vol. I, p. [120].

3 Areksoussi, 2016, vol. III, p. [34].

4 Kidd does not cite any literature, his acknowledgement states: “For much of the data contained in this article, I am indebted to Messrs. Norman Hill, H.J. Posner, W.B. Scotcher and Dr. E. Bowman, who freely placed their collections and information at my disposal.”

5 Railway Mail Service / Indian Expeditionary Force.

In one paragraph Kidd describes the Haifa–Damascus line, detailing five different cancellers. He writes:⁶

Although this line was not operated by the postal authorities of Palestine, it may be pertinent to record the marks known to have been used in the years between 1919 and 1931 at least. To the best of my knowledge the postmarks are exclusively found on the stamps of Syria, although it is conceivable that in the early days, Palestinian stamps were cancelled. Although the name of the Palestinian town appears in the datestamp, it is unlikely that there was any provision for postmarking on Palestinian territory. From the frontier to Haifa, the Postal Van would operate as a bag tender.

Fig. 3: Two Ottoman cancels that continued to be in use after the war.⁷

Fig. 4: Syrian cancel, ca. 1921.⁸

Fig. 5: Syrian cancel, 14.10.1924.⁹

In 1963, Michael M. Sacher publishes a substantial article on the topic. For the Mandate period, Sacher lists the same cancels as Kidd (now numbered 23–28)¹⁰ and shows nos. 23 and 24 (fig. 3). Later that year, Sacher with the help of Bowman and Kanner gives an update, showing potentially no. 27 or 28 (fig. 4), and in a 1964 update he recognises an apparent new type (fig. 5).

In 1964 Philipp Kanner looks closer at Syrian T.P.O. cancels on Palestine Mandate stamps:

It has been assumed in philatelic circles [...] that this office operated in Syria only and acted in Palestine as a bag-tender. A tacit agreement to accept Palestine stamps by the Syrian authorities would indeed explain the occurrence of Palestine stamps cancelled by the TPO. However, considering the difference in the rate of exchange between the Palestine Pound [...] and the devalued French Franc in 1921/22 [...] there was no inducement for anyone in Syria to use the dear Palestine stamps. On the contrary, the high rate of the Palestine Pound must have militated against and deterred from using such stamps. [...] The small number of stamps and pieces known suggests that this acceptance of mail items, handed in by individuals, was rather occasional, and perhaps in disregard of regulations. [...]

In 2016, Areksoussi shows a 1921 cover¹¹ with the entire postmark “DAMAS : HAIFFA” (fig. 6), which cannot be attributed to any of the types previously identified.

Taking in all the information I found, one has to recognise that there are several postmarks that have never been shown (Kidd b–e/Sacher 25–28), and some examples shown (figs. 4–6) are not clearly identifiable with listed types.

I’ve compiled the following table to give a better overview:

6 Kidd, 1956, pp. 8–9.

7 Sacher, 1963, p. xf. The two marks are also shown by Areksoussi, 2016, Vol. III, pp. [29–30]. Cf. Birken, 2016, vol. Suriye, p. 14.

8 Sacher, 1963a, p. xf.

9 Sacher, 1964, p. xj.

10 Kidd’s cancel (a) is given two entries: no. 23 (index 1) and no. 24 (index 2).

11 Areksoussi, 2016, vol. III, p. [30].

A Kuwait Cover with 1948 Syrian Censorship

by Thomas Johansen

Copyright © 2017

I can present a cover sent from Kuwait to Syria on 18th September 1948. I am sure such censored covers should be very common but it is the only cover I have seen from the Gulf to Syria since I started collecting in 1999.¹

Figs. 1, 2, and 3: Details from the cover: censor mark: ١٤ / المراقبة السورية [Syrian Surveillance 14].

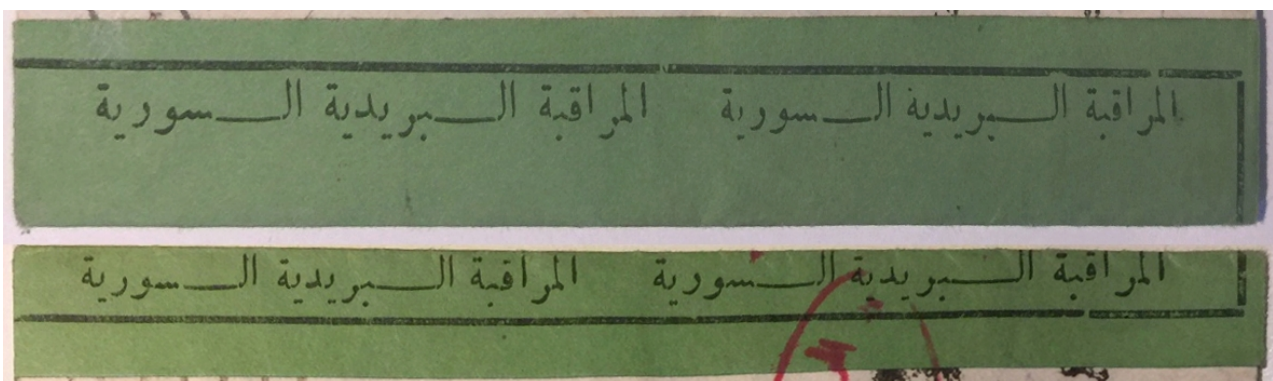

Fig. 4: Detail from the cover showing censorship sealing label:
المراقبة البريد السورية [Syrian postal surveillance].

¹ Parren, 2011, p. 35, lists only 3 (out of 37) 1948 covers coming from foreign countries into Syria: one each from Norway, the USA, and Saudi Arabia.

Figs. 5 and 5b: Cover from Kuwait to Aleppo, censored in Syria: green censor label المراقبة البريد السورية [Syrian postal surveillance] and red oval censor mark: ١٤ / المراقبة السورية [Syrian Surveillance 14]. Transit mark Baghdad 21.09.1948. Aleppo arrival mark illegible, as is most of the Damascus machine cancel.

Editor's Notes

Not being familiar with Syrian Censors, I made a few enquiries and searched the internet for further information about the red oval censorship hand-stamp.

There have been few covers on offer on eBay and trader's websites: I have seen numbers 6, 9,² 18, and 30³ on Damascus covers going abroad, 6 on Homs covers via Damascus going abroad,⁴ 12 (in black),⁵ and 14 from Aleppo via Damascus going abroad,⁶ 24 from Bosra via Damascus to Israel (POW),⁷ and 7 from London to Damascus.⁸

Marc Parren can trace covers with nos. 2–10, 12, 14, 15, 18, 24, 26, 28–31, 35, 36, 37, 48, and 50 in his 2017 article,⁹ and Chaker Areksoussi shows nos. 2–10, 13–19, 21–32, [33/34/35?],¹⁰ 36–39, and 100, but gives few details.¹¹ Marc is continuing to collect information about Syrian censor marks and would appreciate being sent images of such covers (front and backside), both for the 1948 period covered here and for 1956/57.

Iraqi Censorship Post-WWII

by Marc Parren¹

Copyright © 2017

For some time I have been compiling a listing of the post-WWII censorship types of Iraq. Postal censorship started in 1958 and the last censored postal item I have seen dates back from 2002, just before the second Gulf War started in which Iraq was invaded.

Iraqi censorship is very rich in the types of devices used, such as triangular, square, rectangular, circular and oval hand-stamps. In addition we can see civil and military censorship as well as resealing-labels applied. Most of the hand-stamps mention the location (town) name and it appears that most large towns had their own hand-stamps with such an indication. There were also often numbers included in the hand-stamps either applied at the top or at the bottom of the hand-stamp indicating most likely the unique identification number of the censor.

Many such hand-stamps were not applied to the front of the item but rather at the backside of the cover, which makes hunting for these on the internet more difficult as many a seller only shows the front of an item.

Most hand-stamps were made out of rubber and due to wear this makes the taking of measurements more difficult. In addition quite often some corners of the hand-stamps were not inked on the covers making it more difficult to make sure the measurement is correct. There is such a variety that you have to measure to the exact millimetre and this implies that it does not allow for measurement from a scan. You will have to measure the original and even then there is room for interpretation.

Furthermore quite a few covers show postage stamps cancelled by postmarks which are unreadable, either for the town name in Latin or Arabic script and/or the date of posting. So you have to make sure that all these are at least present to be able to date and locate the item and accordingly the censorship device that goes with it.

So far I can list these different censorship hand-stamps:

- 33 triangular marks,
- 6 circular marks,
- 1 oval mark,
- 4 rectangular marks, and
- 19 modern marks from the mid-1970s.

I am showing below some examples to give a taste for these.

In case you can contribute to my listing, which I hope to publish one day, I'd like to ask you to send me scans of the front and backside of the item with a resolution of at least 300 dpi and correct measurements to the nearest millimetre of the censorship device. Any translations of the Arabic you can provide are also most welcome.

A New Variety of Transjordan Palestine 1948 2m?

by Tobias Zywiets

with material from Kamal Kawar, Avo Kapalanian, and Bernd-Dieter Buscke

Copyright © 2017

In 2016 Kamal Kawar sent me scans of a variety of the Transjordan 2 Mils Palestine stamps he described as “unrecorded by any catalogue and in my opinion a new discovery.”

Between December 1948 and April 1950, the post offices established by Transjordan on the West Bank were issued with special overprinted stamps. On 25.04.1950 Jordanian stamps were issued, but the overprints could be used up, even beyond December 1950.

The Transjordanian definitive series that was overprinted ran in several prints starting in 1930: catalogues list six design types and five perforation types. Overprints “فلسطين / PALESTINE” were furnished as follows:

- Issue 1930: one value of 200m in perforation 14, recess printing by Perkins & Bacon. Watermark: Crown Agents (SG type W9). Beirut overprint only.
- Issue 1939: one value of 2m in perforation 13½:13, recess printing by Perkins & Bacon. Watermark: Crown Agents (SG type W9). Beirut and Amman overprints.
- Issue 1942: one value of 2m in perforation 13½, lithography printing by Survey Department, Cairo. No watermark. Beirut overprint only.
- Issue 1943: four values of 1, 2, 3, and 5m, in perforation 12, recess printing by Bradbury & Wilkinson. Watermark: Crown Agents (SG type W9). 3m Beirut overprint only, rest both Beirut and Amman overprints.
- Issue 1944: six values of 50, 90, 100, 200, 500m, and 1 Pound, in perforation 12, recess printing by Bradbury & Wilkinson. Watermark: Crown Agents (SG type W9). Beirut and Amman overprints.
- Issue 1947: six values of 3, 4, 10, 12, 15, and 20m, in perforation 12, recess printing by Bradbury & Wilkinson. Watermark: Crown Agents (SG type W9). 12m Beirut overprint only, rest both Beirut and Amman overprints.

The first overprints, for issue on 2nd December 1948, were printed by Catholic Press, Beirut, later overprints were furnished locally by an Amman printer.¹

The green 2 Mils value exists thus:²

SG	Michel	Value	Colour	Perf.	Base SG	Base Michel	Base Issued
— ³	—	2m	bluish green	K14	195	156a A	01.06.1930
P2	2 C a	2m	green/bluish green	K12	231	156a C	02.01.1943
P2c	2 D b ⁴	2m	green/bluish green	K13½:13	195a	156b D	1939
P2d	A 2	2m	green	K13½	223	186	18.05.1942

1 Cf. Peter Robert Randall Gee-Heaton (1918–2013): *Transjordan : overprints on King Abdullah definitive issues 1948/1953*. In: *The Holy Land & Middle East Philatelic Magazine*, vol. 1, 1957, no. 3 (April 1957), p. 63.

2 There were “FILS” overprints in 1952 on SG 195a, 223, and 231: SG 314d, 314e, and 314f.

3 This stamp was not overprinted for Palestine.

4 Note that the Michel listing is misleading: it gives perforation as 13½ where it should state 13½:13.

Kawar's New Discovery?

The variety Kawar presents (figs. 2 and 3) apparently shows darker colour as well as darker paper and gum. In his opinion "it is certainly not based on SG no. 195a, but it is also not SG no. P2c."

Fig. 1: Overprint design type P1

Fig. 2: The new variety?

Fig. 3: SG 195 for comparison.

Not being a specialist in the area, I sought opinions from two renowned Jordan specialists:

Bernd-Dieter Buscke told me:

Without seeing the actual stamps for the purpose of color comparisons, however, it is not possible to answer and evaluate them. I have a lot of comparative material. There are a lot of nuances in the colour of the respective stamps.

Avo Kaplanian wrote:

When you compare both stamps, you see that the PALESTINE overprinted stamp shows a darker colour and a darker brownish paper; see second scan. I think that all Palestine overprinted stamps are to be found on the darker colour paper. Whether this is a UNIQUE find, I am not so sure.

Dr. Kaplanian sent me images of SG 195a and P2c scanned in one go side-by-side:

Fig. 4: SG 195a

Fig. 5: SG P2c

In response, Kamal Kawar sent me more scans and these comments:

If SG 195a with the opt. makes it P2c, this sheet is definitely not P2c. Possible that there was a later printing plate that was printed just for the West Bank, that have not been reported, or missed by the specialists. Scanning some of my singles and pairs, mint & used shows the exact SG195a with opt that listed correctly as P2c. As for the large opt sheet, side by side with SG195a shows more clearly the difference, and definitely it is NOT a P2c.

Fig. 6: The new variety?

Fig. 7: SG 195 for comparison.

Fig. 8: For comparison: P2c and 195a, used and unused.

Conclusion?

This issue remains open. Were there reprints of SG 195 with different shades of colour, paper and gum exclusively for the Palestine overprints?

Maybe other collectors can revisit their collections and report their findings back to us.

Nablus AM/PM Postmarks Revisited

by Tobias Zywietz
with material from Paul Phillips and Avo Kaplanian

Copyright © 2017

Paul Phillips responded to the two articles on Nablus postmarks published in MEPB 3:¹

*My attention, obviously, was drawn to the two articles on Nablus. Looking through the information in the two articles, it appears that the **AM** and **PM** marks were used internally only. The only complete cover with the **X** mark is going overseas. Maybe that is telling us something.*

I am showing a scan of one AM cover which I obtained recently. It is going to Ramallah at the 4 fils rate, is unsealed and has no sign of creasing from the contents.

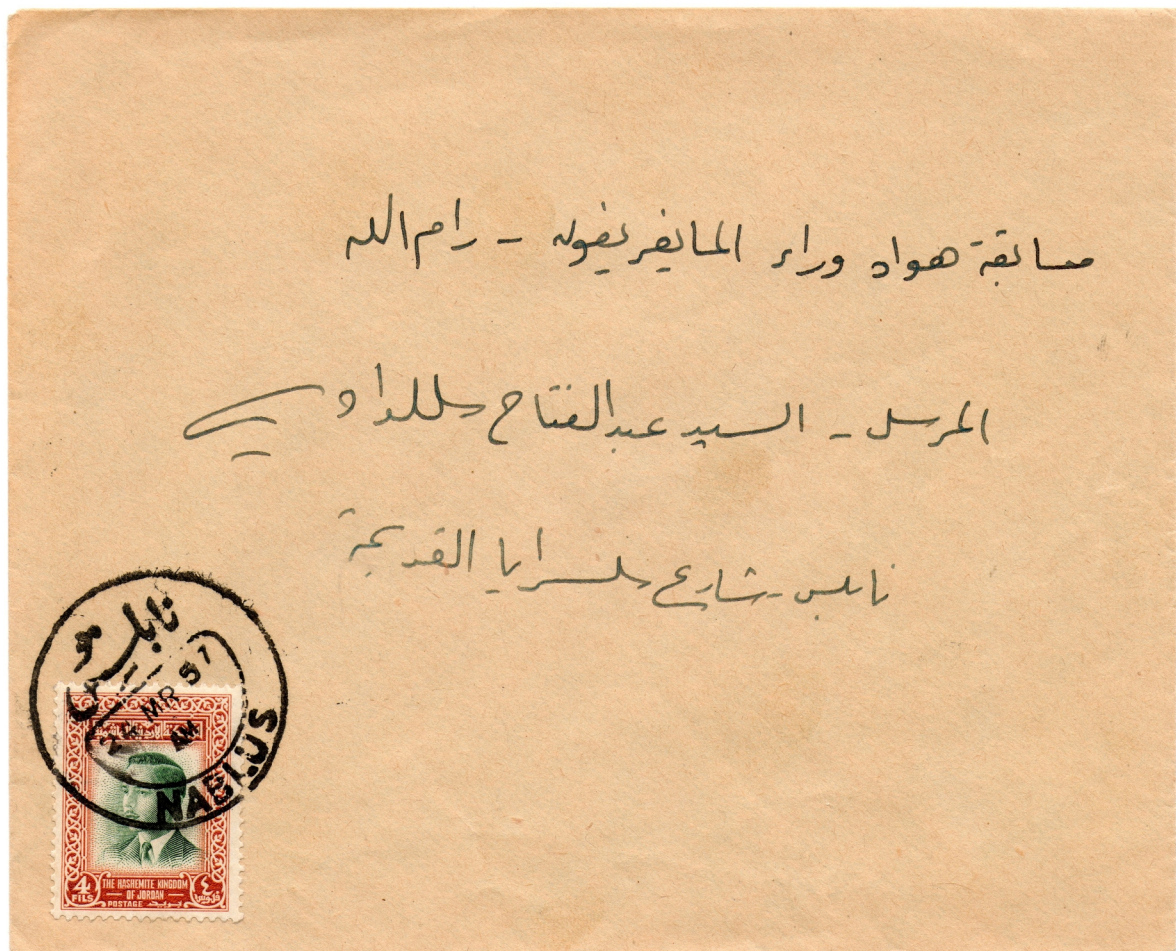

Fig. 1: Cover from Nablus to Ramallah: **NABLUS / 24 MR 57 / AM**.

¹ Referring to Buscke, Bernd-Dieter: *Two Nablus postmarks discovered after 60 years*, and Zywietz, Tobias: *Jordan's Nablus postmarks: more discoveries*; both published in MEPB 3, pp. 15–23.

More recently, Professor Philips sent me a second cover (see fig. 2) with this comment:

*I have only now discovered another Nablus **PM** postmark that had been sitting in my album for over a decade.*

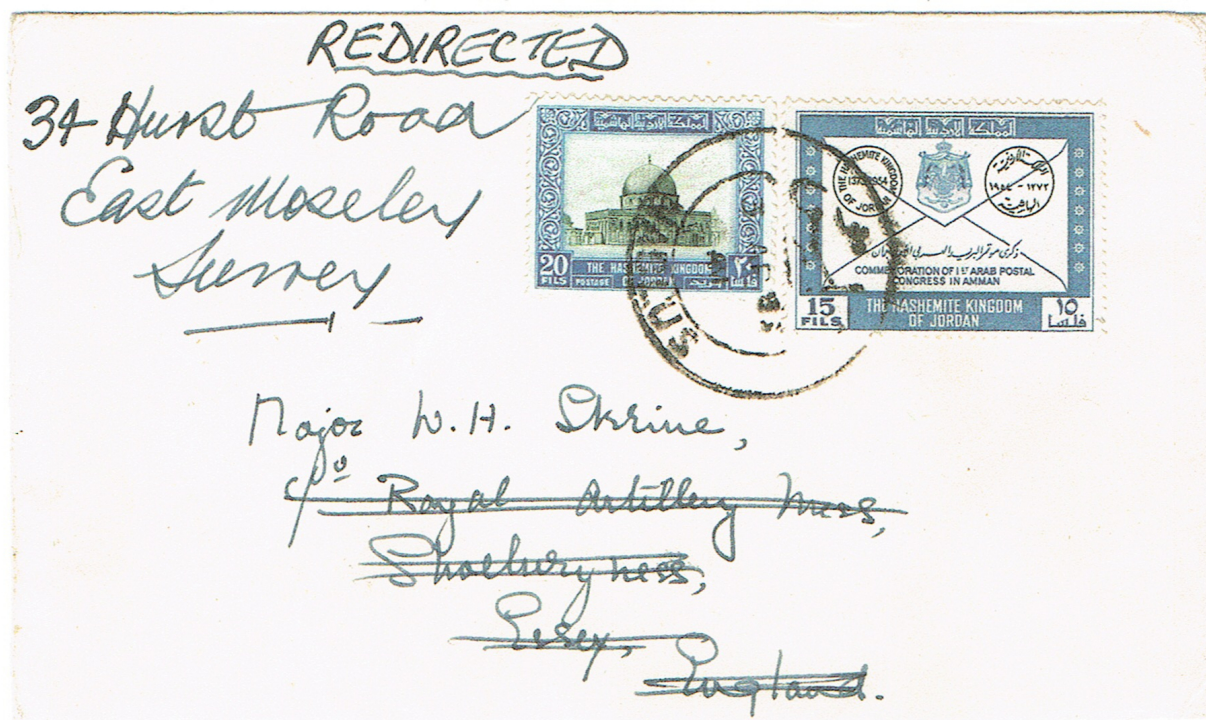

Fig. 2: Cover from Nablus to Jerusalem: **NABLUS / ?? MR 57 / PM**.

Paul suggested to take a closer look at the recipients, and Avo Kaplanian kindly deciphered the addresses: both are to be destined for the Jordanian Radio station in Ramallah regarding a programme entitled “What is behind the microphone.” One of the covers shown in MEPB 3 (fig. 8) also was directed to the Jordanian Radio station, the other (fig. 6) to the “Evening” newspaper² in Jerusalem.

Avo Kaplanian provided a further three covers from his collection, proving that the **AM** postmark does indeed occur on foreign letters as well as inland ones:

- Figs. 3 and 3b: Nablus to Shoeburyness, Essex, England, then redirected within England: **NABLUS / [3?] AP 56 / AM**.
- Figs. 4 and 4b: Bourqa (Burka) 17.04.1956 to England, with a transit mark on the reverse: **NABLUS / 17 AP 56 / PM**.
- Fig. 5: An Air Mail Letter Sheet (35m+10m uprate) to Weymouth, Mass., U.S.A.: **NABLUS / 31 MR 56 / AM**. Both the use on an Air Mail Letter Sheet and the destination are unique to Nablus **AM** or **PM** postmarks discovered so far.

² I could not find any details about any such newspaper.

Figs. 3 and 3b: Front and reverse of a cover from Nablus to Shoeburyness, Essex, England, redirected to East Moseley, Surrey, England: **NABLUS / ?? 56 / AM.**

Figs. 4 and 4b: Front and reverse of a cover from Bourqa (Burka) 17.04.1956 to England, with a transit mark on the reverse: **NABLUS / 17 AP 56 / PM.**

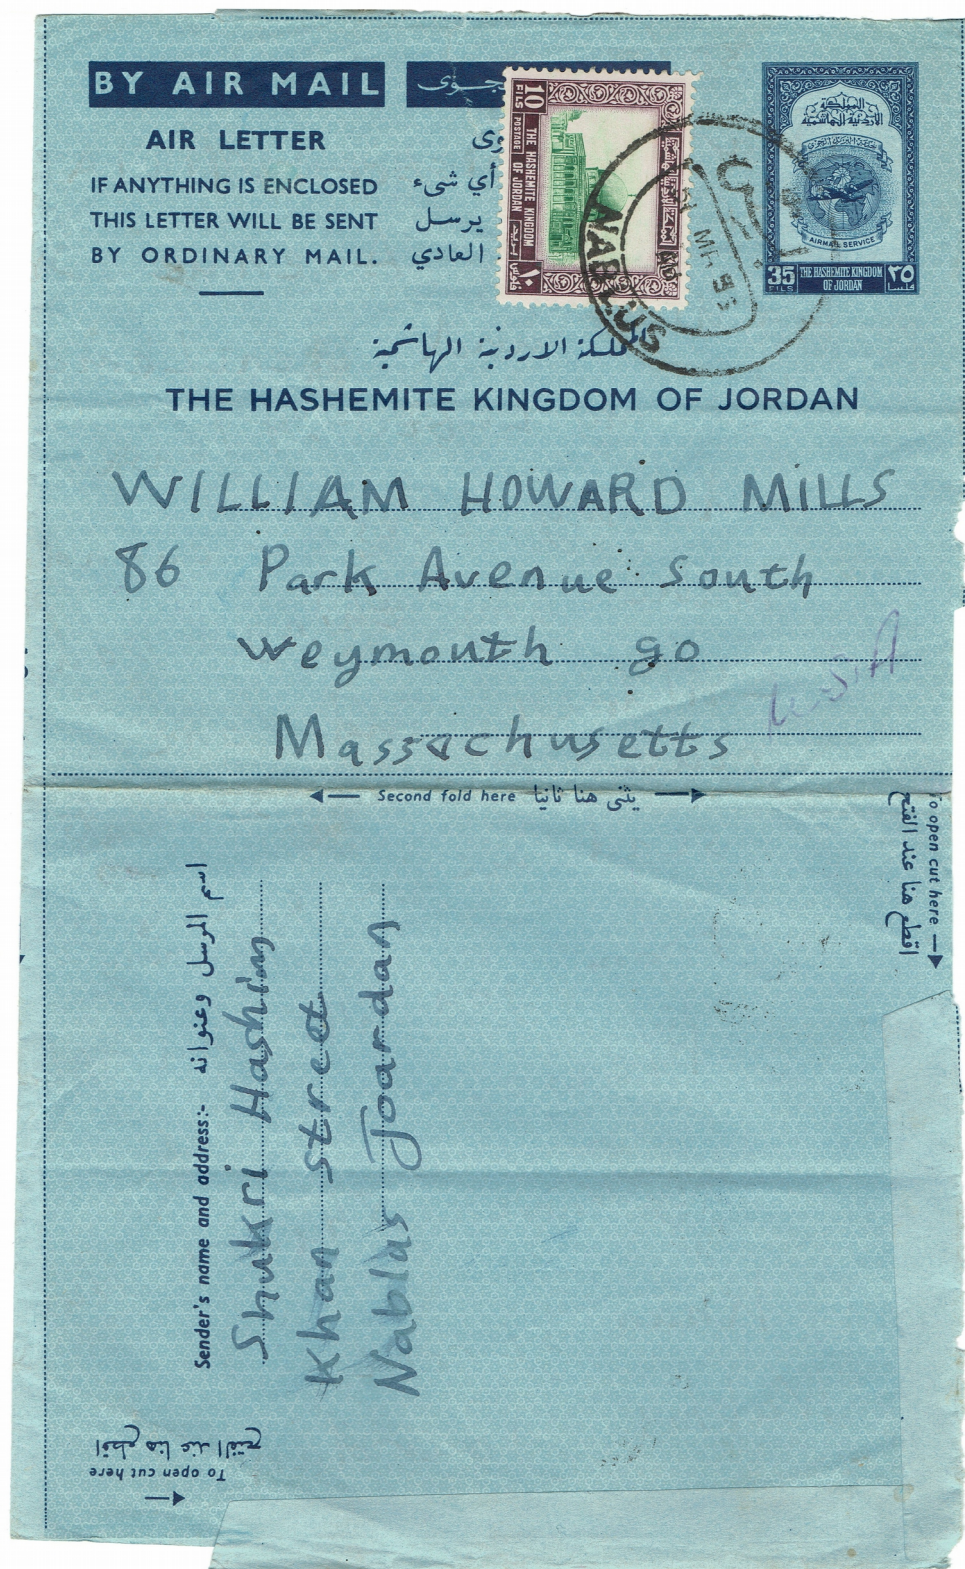

Fig. 5: Air Mail Letter Sheet (35f uprated by 10f) to Weymouth, Mass., U.S.A.

Postmark: **NABLUS / 31 MR 56 / AM.**

Both the use on an Air Mail Letter Sheet and the destination are unique to Nablus AM or PM postmarks discovered so far.

Ottoman Empire at Spring Stampex 2017

by Tobias Zywiets and Rainer Fuchs (FRPSL, AIJP)

Copyright © 2017

The Association of British Philatelic Societies Ltd. (ABPS) held its *Spring Stampex 2017* exhibition on 15th to 18th February 2017 at the Business Design Centre, in Islington, London.

The National Competition (with FEPA recognition) offered a range of displays across many classes, with most displays (frames 43–311, 336–340 and 380–449) belonging to the Special Exhibition Ottoman Empire. It was open to all exhibitors in the United Kingdom, and to exhibitors from other FIP and FEPA affiliated countries.

The exhibition highlighted the philately of the Ottoman Empire from the Pillars of Hercules to the Gates of Vienna, including successor states. The Centenary of the first stamps of Iraq was marked at the same time.

Of the 95 Ottoman and Middle-East related displays in competition, 24 were awarded Large Gold, and 10 Gold, with *best-in-show* going to Tarik Alireza's "Saudi Arabia: Development of the Ottoman Postal Service (1801–1919)" with 96 points.

The exhibition was officially inaugurated by the Iraqi Ambassador to the UK, His Excellency Dr. Salih Husain Ali Al-Tamimi, which had been announced by RPSL officials only at short notice. During this opening ceremony he was presented with a copy of Freddy Khalastchy's book "Baghdad in British Occupation : The Story of the 1917 Provisional Stamps" and received a guided tour of the show by the exhibition committee. The Turkish Ambassador, His Excellency Mr. Abdurrahman Bilgiç, was present at the show and received the same guided tour.

It was probably for the first time in philatelic exhibition history that such a large number of top-class Ottoman Empire and Middle East related exhibits were shown in one place. And that might remain so for a long time to come.

On occasion of the topical exhibition, a very well attended reception was held by and in the premises of the Royal Philatelic Society of London to officially announce the issue of the society's newest publication: Freddy (Alfred) Khalastchy's "Baghdad in British Occupation : The Story of the 1917 Provisional Stamps."

The book, ISBN: 978-0-900631-88-7, is available directly from the society at £50 plus postage and packing.¹

A Curious Palestine Slogan Meter Mark from Yemen

by Lawrence Fisher

Copyright © 2017

10 years ago I purchased this cut-out meter mark (see *fig. 1*) from a dealer in Lebanon. The meter was supposed to be issued in 1980 for the annual “International Day of Solidarity with the Palestinian People” which falls on the 29th of November. The United Nations website says:¹

In 1977, the General Assembly called for the annual observance of 29 November as the International Day of Solidarity with the Palestinian People (resolution 32/40 B). On that day, in 1947, the Assembly adopted the resolution on the partition of Palestine (resolution 181 (II)). [...] The resolution on the observance of the International Day of Solidarity with the Palestinian People [resolution 60/37 of 1 December 2005] also encouraged Member States to continue to give the widest support and publicity to the observance of the Day of Solidarity.

There are some interesting aspects here:

- The date stamp shows 15th May and the tariff was “0.00”. Was this a specimen? A trial run? Why 15th May? Perhaps due to the 15th May being the date of the “Nakba”? If the date was intentional, then why was the text not changed accordingly?
- A second item of interest is the spelling of the word Palestinian “Phalesteanean”. This does make sense as there is no P in Arabic and Palestine in Arabic is pronounced Filistin.
- 36 years have passed since the meter was supposed to have been issued. This is the only item I have ever seen. Has this meter actually ever been used?

In *fig. 2* I show another Palestine slogan. Does anyone have any information and can also help me find another copy?

The Postal Stationery of Israel

a research request by Sid Morginstin

Copyright © 2017

After many promises and delays, I am finally re-writing my book "The Postal Stationery of Israel." It will delve into all aspects of the topic: air letter sheets, postal cards, entires, inland letter sheets, and much more.

The first edition of 1998¹ came to 103 Pages and gave in-depth descriptions of over 200 types of postal stationery used in Israel along with many illustrations. Descriptions of the various errors, varieties, and freaks were also included.

As of March 2017 I am looking for commercial usages of the inland letter sheets and the entires. Of special interest are also postal rates for aerogrammes, inland letter sheets, and postal cards, although I do not plan currently to get into the rates for the entires.

If any reader has any unusual items, or any interesting information on the topic, please send a scan to me at leadstamp@verizon.net, putting "stationery" in the subject-line, or send a letter to PO Box 8101, Trenton, NJ 08650, U.S.A.

Israel Postal Rates 1983–1984

a research offer by Sid Morginstin

Copyright © 2017

In my business as auctioneer, a client offered me a packet of Israel postal rate charts. We quickly came to fair price. The lot contains many large sheets (in most cases in both Hebrew and English) showing postal rates for all types of mail to all destinations covering the period from March 1983 to May 1984.

This may be of interest or use for the postal historian, exhibitor, or someone doing research. If a reader needs a specific rate, I will be more than happy to provide it. Please send an e-mail to leadstamp@verizon.net, putting "rates request" in the subject-line, and please do specify exactly what you need.

If a collector researches this area and is willing to summarize all of the information, I will be more than happy to *loan* the sheets on the condition of payment of postage both ways.

This series of articles lists and displays all postal history related items found in the Official Gazettes covering Palestine from 1917 to 1948. Part five covers the year 1926.

During the British and Allied Occupation of Palestine (1917–1920), the subsequent British civil administration (1920–1923), and the League of Nations Mandate (1923–1948), administrative notifications, statutes, orders, regulations, proclamations, and miscellaneous announcements were published “*by authority*” in official newspapers. The English editions were published as follows:²

Notes

One Gazette issue is missing from the two sources available to me: no. 175 of 15th November 1926, covering pages 595 to 624. I have not been able to unearth that issue, so far. Any help in finding a copy or scans is very much welcome.

16.08.1926: Embarrassing Postal Packets

NOTICES.

1.

Packets prohibited from transmission by Post.

Postal Packets of such a form or so made up for transmission by post as to be likely, in the opinion of the Postmaster General, to embarrass the officers of the Post Office in dealing with the packets, are prohibited from transmission by post. The following are instances of packets which may be held to contravene this regulation and are liable to be refused or withheld from delivery:-

1. A packet having anything printed or otherwise impressed upon or attached to the address side which, either by tending to prevent the easy and quick reading of the address, or by inconvenient proximity to the postage stamps,

or in any other way, is likely to impede the officers of the Post Office in dealing with it. Cards, envelopes, labels and wrappers are, however, admitted if the writing or printing is confined to the left-hand half of the address side, the right-hand half being reserved exclusively for the postage stamps and the address.

2. A packet bearing on its address side an adhesive label or printed design either resembling a postage stamp in shape or size or in the form of a frame for a postage stamp.

3. A packet having its address parallel to the breadth instead of the length of the envelope.

4. A postcard or a pictorial card which does not conform to the following conditions, viz:- it must not be less than 10 cm. in length by 7 cm. in width, and must, whenever possible, be square or oblong in shape.

5. A packet or envelope of a red colour or of another colour likely to cause strain on the eyes of the officers of the Post Office.

6. A packet enclosed in a wholly transparent envelope.

7. A packet enclosed in an envelope with a transparent panel or a "cut-out" panel which does not conform to the following conditions, viz:-

- (a) The panel must extend parallel to the length of the envelope.
- (b) A sufficient space, about 3½ cm., must be left above the panel for the postage stamp and the date-stamp impression.
- (c) A "cut-out" panel must not exceed 9 cm. in length by 3 cm. in width.
- (d) No writing or printing other than the address may be displayed through the panel, and the address must appear through the panel in such a manner as to be read with reasonable facility.

1.11.1926: Parcels to U.S.A. (Customs Declaration)

DEPARTMENT OF POSTS & TELEGRAPHS.

NOTICES.

I.

The United States Post Office has notified that commencing on the 1st of November a separate set of Customs declarations in respect of each parcel need not be prepared in cases where several parcels are despatched simultaneously by the same sender to the same addressee at one address.

Under this arrangement each parcel should be clearly marked with a fractional number, the numerator of which will indicate the serial number of the parcel in the consignment. For example, if a consignment were composed of 15 parcels, the parcels would be numbered respectively, $\frac{1}{15}$, $\frac{2}{15}$, $\frac{3}{15}$ etc.

Two Customs declarations are necessary in the case of parcels routed "via Egypt and Dollar Line" and three in the case of those routed "via P. & O. and London."

In either case one of the declarations should be securely attached to one of the parcels by means of gum, paste, or similar adhesive matter.

The total number of parcels comprised in the consignment should invariably be indicated on the Customs declarations.

Recent Philatelic Journals

A selection of articles related to the Middle East from recent philatelic journals. Usually these journals are only available to members of the respective societies. Where known I am listing the price at which the society provides individual journals to non-members. Please enquire with each society for any conditions of supply.

OPAL Journal 233 – May 2016

Oriental Philatelic Association of London, English, A5, colour, –

In Queries, the lack of responses to previous queries is lamented. One response received is noted: Martyn Hickman can show a genuinely used cover with a 1921 Ain-Tab overprint (1–2).

T. Zywietz presents the first part of his research into the oriental travels of Julius Bolthausen, centring on Bolthausen's picture postcards [reprint from *The Middle East Philatelic Bulletin*, no. 1, 2015] (3–14).

B. Bradford shows an unrecorded set of stamps: 21 pictorial stamps headed "Türkiye Postaları" (ranging from 0,50 to 250 kuruş) and four such stamps with a red overprint "Hava Kurumu / Jardin Aliti / +10 K / 1944-1945" found on eBay. Are these bogus or a sort of trial set? (15–18).

T. Hacking reports on the first Airstamp in Turkey, comparing sources and questioning dates and circumstances (19–21).

M. Whittaker shows an 1857 letter from Sofia to Shumno (Shumen) in modern Bulgaria (22).

B. Bradford endeavours to correct errors and omissions in Stanley Gibbons' Turkey catalogue (i.e. part 16 "Central Asia") (23–32).

Topics in Queries: 1898 Thessaly stamps and forged cancellations (W. Pijnenberg), the cancellation (presumed "SAHRA") on a 1922 Akpınar Provisional (B. Orhan), the border between Albania & Montenegro 1878–1912 (O. Graf), colour shades of Duloz stamps (A. Birken), forgeries of the 1892 "Imprimé" overprints (R. Rose), referring to three articles in *The Levant* (2008/2009), the War Orphans overprint on 1916 Istanbul City Post stamps, availability of the *OPAL Journal* in the RPSL library, and opinions are sought on Birken's Ottoman postmark CD (33–40).

OPAL Journal 234 – September 2016

Oriental Philatelic Association of London, English, A5, colour, –

Y. Stantzopoulos unearthed an article in the second issue of Ali Nusret Pulhans's journal "Filatelist" (February 1947), its contents are summarised by M. Basaran. Mentioned is the bogus "Türkiye Postaları" set described by B. Bradford in OPAL 233 (2–3).

R. Barnes found a lot offered at a Karamitsos auction containing overprint stamps from the 1920 Greek occupation of Panormos (Πάνορμος, today Bandırma on the Marmara Sea).

B. Bradford shows manuscript censor marks from Mersine, Cilicia, in 1919 with M. Fulford adding a similar example from Syria (5–6).

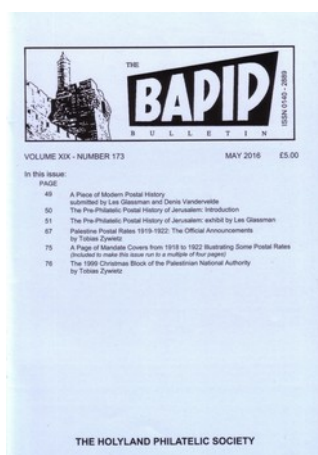

- I. Clare asks for help identifying a postmark on a picture postcard from 1908.
 B. Bradford gathered together suggestions on improving the Turkey stamp catalogues, contributions are from I. Clare and R. Malim (7–8).
 W. Pijnenberg presents ‘some Levant oddities’: forgeries of German, Russian, British, and Austrian Levant stamps (9–11).
 B. Bradford follows on with ‘Angora oddities’ seen on eBay, featuring Duloz and other issues (12).
 B. Bradford presents his study of the Cilicia overprints (type 5) on 25p Ottoman stamps (SG no. 85) (13–17).
 F. P. Katz and K. Ertem researched the life and works of Şevket Vahdeti (1833–1871), the designer of the Duloz stamps [reprint from Collector’s Club Philatelist] (18–[34]).
OPAL’s librarian M. Fulford reports on the digitisation of the clippings collection and OPAL Journals (4).

OPAL Journal 235 – March 2017

Oriental Philatelic Association of London, English, A5, colour, –

- B. Bradford reports on Spring Stampex 2017 and lists the awards achieved by OPAL-relevant exhibits (2–4).
 A. Özbek shows parts from his Duloz exhibit shown at Spring Stampex 2017, achieving 93 points and Large Vermeil ([a], 5–10, [c], [d]).
 B. Stuchel responds to I. Clare’s query in OPAL 234 on a curious 1908 postmark: he suggests that this was not a postmark at all but an impression from a coin (11).
 M. Lovegrove reports on his finding regarding the reported by never-seen “3” overprint on Hejaz Railway Revenue stamps: he suggests that the “3” is part of the OETA overprint handstamp and not a separate “3” surcharge (12–13).
 A Constantinople postmark on a Chinese stamp is shown: BRITISH POST OFFICE CONSTANTINOPLE [reprint from The Overprinter] (13).
 R. Malim reports on the shades of British Levant 4 piastres on 1d [reprint from The Overprinter] (14).
 J. Smith shows a “KUWATT” postmark (double-circled date-stamp, type 13) used 15.06.1948 [reprint from The Overprinter] (15).
 B. Bradfords report on a find of possibly colour trials or printer’s waste of Duloz stamps from the collection of forgeries of Bath Philatelic Society (16).
 R. Malim revisits British Levant 2/6d “Seahorse” overprints [reprint from The Overprinter] (17–18).
 A. Tregurtha shows a new Kuwait overprint variant, recently added by Stanley Gibbons: 1955 2r on 2/6d in with type III surcharge “S central under T” [reprint from The Overprinter] (19).
 R. Malim studies an official envelope used in 1901 by the British Consulate General in Constantinople and also shows a similar cover from Smyrna, 1904 [reprint from The Overprinter] (20–22).
 J. Gledhill shows a British postal order issued in Smyrna in 1909 [reprint from The Overprinter] (23–25).
 T. Stanford looks at “EXPRESS D’ORIENT” labels on cover, showing also a postcard from an online auction of 2014. In response, A. Papadopoulos and U. Dörr both agree that this card is a forgeries [both reprints from The Overprinter] (25–28).
 B. Bradford reports on a forged type 4 overprint “T.E.O. / CILICIE” (29).
 T. Hacking show the Bogus 1945 “Hava Kurumu / Jardin Aliti / +10 K / 1944-1945” overprint [see OPAL 233] (30).

[Editor's comment: The 73 points and the silver medal the exhibit won at London's Europhilex in 2015 seems rather generous. The material shown is fine though very much episodic, the descriptions given are lacklustre and the presentation/layout is so ghastly (especially the font style with its lack of accentuation) that this lets the topic and the exhibitor's material down tremendously.]

[Editor’s comment: Sadly the reviewer can’t resist making disparaging political comments about the work, with half the review dealing with the stamp depicted on the cover: for obvious reasons, the authors had removed the (even in the 1920s) controversial abbreviation of ‘Eretz Israel’ from the Mandate stamp shown] (33).

T. L. C. Tomkins’ “*Notes on the Campaign in Egypt and Palestine 1914–18 : Indian Expeditionary Force ‘E’ and ‘F’*” is reprinted from Gibbons’ Stamp Monthly of December 1967 (pp. 66–68). [Editor’s comment: This almost 50-year-old piece may still be interesting to the philatelic historian, but has long been superseded by John Firebrace’s 1991 epic book “*British Empire campaigns and occupations in the Near East, 1914–1924.*” (37–39).

Small pieces: E. Kroft shows the revenue usage of Doar Ivri stamps on a 1948 cheque (6); N. Zankel presents a 1925 Overland Mail returned cover: Haifa–

Baghdad–Amman–Jerusalem–Haifa (13); B. Weiner shows a May 1948 P.O.W. cover from Mansoura (Egypt) via the Red Cross to an Israeli camp (53); Y. Taschor revisits the Joseph Cohen cover (shown in IP of Summer 2015), centring on the rarity of Bale #2 on a letter (54); J. Wallach shows a 1968/69 Israeli Occupation pass permit for a ticket controller on the Jerusalem–Jericho–Amman bus line (55).

The Israel Philatelist – Spring 2016 – 67. 2016, No. 2

Society of Israel Philatelists, Inc., English, ca. A4 (letter), colour, US-\$ 4.95

- In *Letters to the Editor*, I. Math presents numerators on sheets of Mandate £P1 (4) [see also item below], and B. Belonje, in response to a 'review' in TIP 67/1, points to the 2012 Abuljebain book on Palestinian stamps (5).
- S. Rothmann reviews the Zvi Aloni book "*The postal history of the transition period in Israel, 1948 : vol. 1 ; official postal service ; postal administrations of British Mandate, Minhelet Ha'am and Israel*" (6).
- E. Kroft presents covers with the commercial use of the 1942 Mandate 500m stamp (8–12).
- L. Katz shows some Israeli military postal stationery (20–21).
- H. Epstein studies the gates of the Old Town of Jerusalem (22–25).
- I. Math presents numerators on sheets of Mandate £P1. [*This is actually a reprise of the letter to the editor on p. 4 with a few additional illustrations*] (28–29).
- B. Gruzdz shows essays for the 1950 Israeli airmail stamps (36–37).
- E. Kroft studies Israeli printed matter and its regulation during the 1948 transition period (38–40).
- J. Wallach shows two linear-code registration labels of Palestine, and points out that Israel (unlike all other nations) does not recognise registered covers from the PNA (41).
- N. Zankel reports on the early cancels of Jerusalem's Mea Shearim branch P.O., 1920/1921, incl. a near early date of 28.07.1920 for the J3 postmark (48–50).
- T. Goldstone asks about an unknown UNOGIL aérogramme (50).

The Israel Philatelist – Summer 2016 – 67. 2016, No. 3

Society of Israel Philatelists, Inc., English, ca. A4 (letter), colour, US-\$ 4.95

- In *Letters to the Editor*, I. Math shows a 1942 single-franking of 500 Mils on an airmail cover to the USA (5); and G. Zhiss asks about 'Miss Newton,' to which the editor gives some basic information about Frances E. Newton from her Wikipedia entry (4–5).
- N. Zankel presents a 1922 parcel card for three parcels sent from Jerusalem to New York, franked with 1095 Milliemes, including 5 stamps of 20 Piastres (London II), two 2 Piastres (London I), one 5 Piastres (London I), and one 5 Milliemes (London I). Zankel describes this as "the earliest reported use of the 20 Piastre stamp." Also shown is a 1922 registered cover Jerusalem to California, franked with 104 Milliemes (18).
- A. Harris describes Israeli Revenue stamps (20).
- K. Torby shows two Mandate covers: a 1934 Airmail cover to Bombay (18 Mils), and 1943 Registered letters to Switzerland (35 Mils) (21).
- B. Gruzdz shows essays for the 1950 Israeli airmail stamps (22–23).
- B. Weiner studies P.O.W. Mail in 1948/49 (40–41).
- J. Wallach briefly summarises the history of the Jordanian Post on the West Bank, 1960–1967 (42–46).
- [*Editor's comment: Wallach shows photos of several Jordanian postal cancellers, i.e. the actual postmark devices. As these have clearly been in philatelic hands, one must caution collectors about covers with "BEIT DUQQU / P.O.A." and any single-circle "A.R." and "T" markings.*]
- J. H. Weiner studies a 1934 Catapult Airmail cover from Jerusalem to Brazil, describing this innovative but short-lived method (48–50).

The Israel Philatelist – Fall 2016 – 67. 2016, No. 4*Society of Israel Philatelists, Inc., English, ca. A4 (letter), colour, US-\$ 4-95*

In *Letters to the Editor*, J. Billion shows the 500 Mils Pictorial stamp on a cover franked with 646 Mils (Tel Aviv–Mauritius) (4); N. Zankel shows a registered late fee cover franked with 535 Mils (Tel Aviv–USA) (4); and D. Weiner shows a new early dated for a 7 Mils Pictorial stamp with horizontally ribbed paper on a postcard: 11.03.1928 (5).

J. Billion describes the early period of the Jordanian occupation of the West Bank, featuring a December 1948 cover with the re-used double-circle bars & cross Mandate postmark “RAM ALLAH” (Dorfman 5) (20–22).

M. Rimer analyses the postmarks on a November 1995 cover sent by Dr. Wallach from Tulkarm (then still under Israeli occupation) to Taybeh and returning to Tulkarm (now under Palestinian control) (24–25).

D. Dorfman’s 1962 article on the history of the Mandate Pictorials is reprinted [The Israel Philatelist, 13. 1962, pp. 673–685] (26–28).

J. H. Weiner studies a cover salvaged from the sinking of *H.M.S. Kingstonian* off Sardinia, travelling from Alexandria to Marseille in April 1918 (38–44).

Avo Kaplanian takes up the sparse information about Frances E. Newton given in the previous edition: she traded in Mandate stamps and prolifically prepared covers of both Palestine and Transjordan, specialising in the Waterflow issues. Her address “P.O. Box 63, Haifa” is known from many such covers.

[Reference to Miss Newton is also made in *BAPIP Bulletin* no. 92 of 1978 on p. 8] (46–47).

E. Kroft presents the first part in his introduction about how to exhibit Holy Land material (53–57).

The Israel Philatelist – Winter 2017 – 68. 2017, No. 1*Society of Israel Philatelists, Inc., English, ca. A4 (letter), colour, US-\$ 4-95*

In *Letters to the Editor*, Y. Leheavy reports on a British F.P.O. 535 cover of 19.05.1948 (4); A. Ben Arie shows a 1948 cover from Germany to Palestine, censored in Egypt, posing the question as to its route (4–5); N. Zankel clarifies that the “late fee” had to be paid at the counter with extra stamps (5).

B. Weiner studies a 1948 cover from Beirut (17.04.1948) to Gaza, intercepted by Israel and returned “no service” (8).

Z. Aloni transcribed a public notice announcing the postal rates in Jerusalem in 1871. The piece only adds a 30 Para local rate Jerusalem–Hebron to the already known and published rates (26–27).

N. Zankel shows an early Air Mail cover from Palestine to India, franked 26m: Jerusalem 5.04.1927, “via Air Mail Gaza–Karachi” and transit marks of Baghdad 7.04.1927 and Karachi 14.04.1927¹ (35).

S. Samuels presents “Mandate Gems:” London II, K14 (SG nos. 71–81, 83, 87) with “SPECIMEN” overprint; 20p, Jeru III, K14, pale-grey cancelled Mea Shearim (41).

M. Bass reports from the *Jerusalem 2016* exhibition (42–45).

E. Kroft presents the second part in his introduction about how best to exhibit Holy Land material (53–57).

Y. Tsachor details recent forgeries of Holy Land material, including: a French 1869 cover to Hungary, redirected to Jerusalem; German P.O. Jaffa 1.10.1898 to Berlin; Palestine Mandate, SG no. 3, FDC 5.03.1918; two Israel 1948 covers.

S. Morginstin gives a beginner’s guide to Holy Land philately (53–57).

¹ Imperial Airways inaugural regular flight starting Cairo 6.04.1927, but terminating at Basra. Mail was forwarded from Baghdad (or Basra?) with the next flight on 16.04.1927 (starting at Cairo 13.04.1927); cf. Laurence Kimpton: *Airmails Across The Middle East 1918–1930*, 2016, pp. 239–240.

Research into Political Aspects of Stamp and Stationery Overprints

I am interested in locating articles authored by an **I. Gerdy** or possibly just I.G. that were published in the 1930s concerning the political importance of various overprints in Arabic, Turkish, Hebrew, and English, on postal items of the Near East. They were not philatelic as such and were published in political opinion magazines which flourished in that era. Any information will be acknowledged.

I am intrigued by my lack of knowledge about the State of Oman stamps and history. I would like to correspond with anyone with knowledge about the history surrounding this fantasy country, possibly exchange stamps and perhaps work towards creating a State of Oman Stamp catalogue.

The Oriental Philatelic Association of London

ORIENTAL PHILATELIC ASSOCIATION
OF LONDON

The Oriental Philatelic Association of London was founded in 1949. Its remit is very broad both geographically and historically as it covers all philatelic aspects of post within the former Ottoman Empire and all its myriad successor states. Nevertheless many members specialise in one small area. Over one third of our membership of over 150 lives abroad, with a particular large number in the USA.

OPAL publishes a couple of journals per year along with a couple of newsletters. Both publications are also used to answer members' queries. If our extensive library can't help with queries, then our membership invariably contains someone who can help, however specialised or esoteric. There are informal meetings held in various UK locations as well as our annual get together for our AGM.

Membership costs presently £5 per annum. Further details can be found on and contacts can be made via OPAL's website: www.mclstamps.co.uk/opal/opalhome.html.

Editorial

Publisher & Editor, The Middle East Philatelic Bulletin

MEPB 1–4

As I write this editorial in early April 2017, the number of downloads of the first four issues of MEPB continues to rise steadily, the cumulative total is now over 5,100. But, as one would expect, numbers are tailing off after the first few months an edition is published:

Issue 1 (December 2015):	2,527
Issue 2 (April 2016):	1,226
Issue 3 (August 2016):	855
Issue 4 (December 2016):	573

Downloads have been decreasing with each issue, but are still outperforming my initial expectations. This, together with very positive responses from readers encourages me to continue with the project. I hope this fifth issue will be received with a similar response and more contributors will come forward with interesting material.

The Contents of this Issue

This edition starts with a piece by *Kemal Giray*: in **Baghdad Provisionals Revisited**, Kemal and I look at the much faked 1889/1892 local bisected overprints from Baghdad. Kemal shows unique documents with the surcharged and bisected stamps of types II and III for destinations outside the vilayets of Iraq.

Rainer Fuchs presents a 1932 Iranian A.R. cover from Teheran to Paris via **Overland Mail**.

Folkert Bruining sent me a query on **Syrian Hejaz Railway Postmarks**, which I follow-up in a review piece with known information on the postmarks of the Palestine branch line to Damascus–Haifa.

Thomas Johansen sent me a query on **1948 Syrian Censorship**, which is followed-up by a request for information by *Marc Parren* on post-WWII **Iraqi Censorship**.

With the aid of *Avo Kaplanian* and *Bernd-Dieter Buscke*, I look into an apparent new discovery made by *Kamal Kawar* of a variety of the **1948 2m Transjordan Palestine**.

Paul Phillips and *Avo Kaplanian* sent me new material on the **Nablus AM/PM Postmarks**.

Rainer Fuchs and I report on the special Ottoman Empire exhibition at **Spring Stampex 2017**.

In **Queries**, *Lawrence Fischer* looks for information on **Palestine Slogan cachets**, and *Sid Morgenstern* announces the re-writing of his book “The Postal Stationery of Israel” and offers information on **Israel Postal Rates 1983/84**.

In **Archive**, the series on postal history and related notices from the **Official Gazettes for Palestine** is continued for the year 1926.

British Capture of Jerusalem: 100th Anniversary

I’m working on a special feature for MEPB 7 commemorating the 100th anniversary of the British capture of Jerusalem. The timeline of 1917 will be filled with snippets from books and articles and show postal and other material from WWI in the Middle East, not just Palestine, but also Hejaz, Mesopotamia, and the other theatres of war. If you have something suitable, or can point me towards such material, please do come forward.

Other Future Articles

These are some of the topics and articles I’m working on together with the authors to include them in future issues of *MEPB*:

- The Coils of Mandate Palestine (Bassam Hama)
- The French Military Mission in the Hejaz 1916–1920 (Saad M. Aldrees)
- The Opening of the Sharjah Post Office: 10 July 1963 (Khalid Omaisra)
- The “Er Ramle” postmark on Zeppelin Orient Flight 1931 covers
- The Oriental Travels of Julius Bolthausen: More Postcards and The Caiffa Bisects
- Early Postcards of Muscat (Joachim Duester)
- The Overprinting of Palestine’s Jerusalem I issue in August 1920
- The Raid on the Bethlehem P.O. in September 1938
- The Printing Process of the Blues of Palestine (P. Risi)
- World Cultural Heritage in Jordan (Dietrich Ecklebe)
- PNA Issues: Gaza Freedom Fleet 2011
- Iraqi Railway Stamps Booklets (Rainer Fuchs)
- The Postage Rates and Overland Mail Surcharges of Iraq 1923–1929/32 (Rainer Fuchs)
- Egypt Rates Changes and Stamps Issues (Edm. Hall)
- Mandate Postmark Record Sheets
- Book Review: Baghdad in British Occupation – The Story of the 1917 Provisional Stamps
- Book Review: Sultanate of Oman Postal System 1966–2016 (Joachim Duester)
- Book Review: Anglo-Egyptian & French Colonial

- Censorship in WWII
- Usage of Postmarks of the Kingdom of Syria in Transjordan 1920–1928 (Bernd-Dieter Buscke)
- Usage of Postmarks of the Kingdom of Hejaz in Ma'an district 1925–1927 (Bernd-Dieter Buscke)
- Cumulative Index to R. Howard Courtney's *The Arab World Philatelist* 1978–1982.

Contributions

I will consider any article of quality for potential inclusion: be it a large article with original research, a small piece looking at a particular aspect, a concise description of an interesting cover, or a long-forgotten piece of research rediscovered. It can be original writing, or material already published.

I will advise and help with anything that is offered. Translation into English can be arranged, and all steps and processes are closely coordinated with the author.

Articles should be submitted as plain text (TXT), rich text (RTF), LibreOffice/OpenOffice (ODT), MS Word (DOC, DOCX) or Adobe Acrobat (PDF). Images can be JPEG/JPG- or PNG-files in 300dpi (or higher) resolution.

Rights to texts and images not belonging to the author should be cleared, or at least be flagged-up, so that I can deal with any such issues. If in doubt: just ask! I will

strive to resolve any such occurring problems.

If you think you can contribute to the journal, please do not hesitate to contact me!

Acknowledgements

I'd like to thank again all contributors and all those aiding and encouraging me in the creation of this journal. The list would be too long to print here, so I name just one non-philatelists, who, as native speaker, helped me with proofreading and gave advice on style of writing, namely Colin Booth.

Several organisations and persons gave me general permission to reprint articles from their journals and archives. One person I have especially to thank is Barry D. Hoffman, copyright owner of F. W. Pollack's *The Holy Land Philatelist*.

Many thanks to all!

Translator and Proof-Reader Needed!

I'm looking for help in editing MEPB, namely volunteers that are willing to translate (German/English, Dutch/English, Arabic/English) or proof-read material submitted.

**Please come forward with your articles,
research notes, queries, and images!
MEPB needs interesting new material!**
